A birthday surprise was given Miss Lillian Vowles Monday evening at the home of Mrs. Samuel Lesters, 416 South Tenth East street. The parlor, recep-tion hall and dining room were deco-rated with carnations, ferns and the

No sooner is the game of hearts concluded than there is a heavy run on patriotism to uphold the flag in decorative lines. The past week has been a highly colored one in the matter of decorations, the national colors predominating. One is forced to wonder if it is this alone which keeps one in the matter of the control o of it is this alone which keeps one in touch with the flag, and if the custom of using it for place cards, for bonbon dishes and what not, were to die out if the average American would forget the precise number of stripes it holds and the exact location of its constellations. We may well be thankful at this time of year that it is in itself so handsome, or we might weary of seeing it in out-of-the-way places.

There was great excitement in certain social circles at an early hour yester-day morning, when the popular Eigh-teenth infantry arrived in the city on their way home from the Philippines their way home from the Philippines A few telegrams to close friends brought many greetings, and although they remained but a few hours, the officers, who had once held a warm place in the hearts of many Salt Lakers, were shown a good time while they were here. One of the most popular of the young officers. Lieutenant E. G. Peyton, was the hero, and the bunch of girls whose last good-byes he carried away with him was sufficient evidence of his popularity. In the two sections in which they came in were, among others of the former residents sections in which they came in were, among others of the former residents of Fort Douglas, Major George S. Young, Captain and Mrs. A. R. Dillingham, Douglas Potts and Mr. Peyton. Captain and Mrs. D. C. Shanks did not return to the United States, having remained in the Islands, where the captain holds the position of governor of Captae. ernor of Cavite.

Bridge is rapidly becoming a non-ex-clusive game after all. It was claimed that it was too intellectual to become that it was too intellectual to become common, but experience has shown that few women are to be found in society life who cannot rally enough intellect to master the rules of a game to a sufficient degree to play it socially. One great benefit it has is that the players retain their tempers in most cases. However, the ultra fashionables have found it so decidedly general, not to say common, that they have taken again to the national game of poker. again to the national game of poker, which vies with keno in its attractiveness. Two or three of the most successful little affairs of the past week have been profitable in the matter of money as well as quite hilarious

There was one message that went astray in regard to the arrival of the Eighteenth. It seems that the correspondence which had been kept up for a time was allowed to lag, and so the young man knew not the whereabouts of the fair one who used to be the "one"

bern of the fair one who used to be the "one girl" of Zion to him. And yet, on nearing home his heart turned to that one girl, and he sent a message by means of the wire asking her to meet him yesterday morning and incidentally to greet him. Behold, the fair one was not in town, and with as deep a sobliged to leave with the special greeting for which he had longed.

"I know now," said a visitor to the city the other day, "why people here are so addicted to the telephone.
